## SUMMARY

I am an experienced technical communication specialist with over a decade in IT, spanning technical writing, documentation tooling, solution engineering, and AI-driven content strategies. My expertise includes:

- Leading user education and documentation guilds across 18+ global product releases.
- Designing AI-powered documentation workflows (Confluence AI, doc-as-code, ClickLearn, Figma integration).
- Driving cross-functional collaboration between engineering, product, and customer teams.
- Delivering high-impact documentation frameworks in SaaS, AI, cloud, and enterprise solutions.

Relocated to Berlin under the Opportunity Card visa, I am committed to building a long-term career in Germany and contributing to the evolution of technical communication within the EU tech ecosystem.
