LEAD TECHNICAL WRITER/LEAD DOCUMENTATION ENGINEER

IFS R&D

| Colombo, Western Province, Sri Lanka

- Developed and maintained standardized documentation frameworks across 18+ enterprise software releases.
- Defined and improved documentation templates for software architecture, integrations, and technical processes.
- Collaborated closely with solution architects, engineering, QA, and product teams to document system workflows, architecture components, and integration points.
- Contributed to and optimized existing doc-as-code workflows using Git and Markdown to improve documentation structure and maintainability.
- Introduced documentation QA processes to improve consistency, completeness, and long-term maintainability.
- Supported cloud-related documentation initiatives aligned with DevOps and modern software engineering practices.
- Provided internal consulting and coaching on documentation standards and governance across product teams.
- Collaborated with teams working on Azure-based environments and cloud-native systems.
- Contributed to establishing documentation governance frameworks aligned with enterprise architecture standards.
- Acted as documentation liaison between architecture, development, QA, and product stakeholders to ensure alignment across complex system changes.
- Ensured consistency, clarity, and completeness of documentation across complex enterprise IT environments.
- Led documentation governance initiatives across 18+ global enterprise product releases, supporting cross-functional teams of 40+ contributors.

SENIOR TECHNICAL WRITER/ SENIOR DOCUMENTATION ENGINEER

Wiley

| Colombo, Western Province, Sri Lanka

- Structured and maintained technical documentation for internal enterprise platforms and workflows.
- Improved documentation clarity, standardization, and information architecture for complex systems.
- Collaborated with cross-functional stakeholders to ensure alignment between documentation and evolving technical processes.
- Supported documentation lifecycle management and continuous improvement initiatives.

Sep 2017
Feb 2018

SENIOR TECHNICAL SALES ENGINEER

Wavenet

| Colombo, Western Province, Sri Lanka

- Created technical documentation, solution descriptions, and RFP/RFI responses for telecommunications software solutions.
- Documented system workflows and deployment approaches in collaboration with engineering teams.
- Supported customer-facing technical documentation and solution explanations.

Jul 2013
Dec 2015

SOLUTIONS ENGINEER / SOFTWARE ENGINEER – ENTERPRISE INTEGRATION

WSO2

| Colombo, Western Province, Sri Lanka

- Produced architecture documentation, integration guides, and deployment documentation for middleware and distributed systems.
- Documented APIs, system workflows, and enterprise integration scenarios in collaboration with engineering teams.
- Supported migration and implementation documentation for customer integration projects.
- Contributed to technical solution documentation aligned with enterprise software architecture standards.
- Worked within agile development environments supporting DevOps-aligned release cycles.

Jan 2011
Dec 2011

SOFTWARE ENGINEER

Calcey

| Colombo, Western Province, Sri Lanka

- Contributed to software development and technical documentation within agile development teams.
- Supported system documentation aligned with engineering workflows and release processes.

SUMMARY

Senior Documentation Engineer with 10+ years of experience in enterprise software environments, specializing in architecture documentation, documentation governance, and cloud-aligned documentation standards. Proven experience supporting integration and migration initiatives, collaborating with solution architects and development teams, and implementing structured documentation frameworks in complex IT ecosystems. Strong background in DevOps-aligned documentation workflows, version-controlled documentation, and quality assurance processes to ensure consistency, clarity, and maintainability across large-scale systems.

SKILLS

- Documentation & Governance: Architecture Documentation • Documentation Standards & Templates • Documentation Governance & QA • Integration & Migration Documentation • Technical Process Documentation • Information Architecture
- Cloud & DevOps: Azure DevOps (ADO) – collaborative exposure • Git-based documentation workflows • Markdown-based documentation • DevOps-aligned documentation processes • CI/CD documentation support • API & Integration documentation
- Tools & Platforms: Confluence (Wiki platforms) • Git • Jira • Markdown • Figma • AI-assisted documentation tools
- Ways of Working: Agile / Scrum environments • Cross-functional collaboration • Stakeholder documentation consulting • Architecture & engineering team support • Quality-focused documentation lifecycle management
